Tech Stack: React JS | Redux | JavaScript

FRONTENDZIP- Noida July 2024 - December 2024

Projects I Worked on Internship

An intern software developer working on the FrontendZip website, which helps users enhance their coding skills.

Areas of responsibility:

- Implement and enhance UI components using HTML, CSS, and JavaScript.
- Ensure a responsive and visually appealing design across all devices.
- Build and optimize React components for a seamless user experience.
- Manage state and props effectively for better performance.
- Use React Hooks (useState, useEffect, etc.) for functional component enhancements.
- Implement modern CSS techniques (Flexbox, Grid, Animations) for better layouts.
- Maintain a consistent design system using reusable styles.
- Ensure cross-browser compatibility and smooth UI interactions.

Tech Stack: React JS | Typescript | HTML | CSS | JAVASCRIPT

PERSONAL PROJECTS

Finance Mangement Nov 2024 - Dec 2024

Finance is an Indian money management web app designed to help users track their expenses and income.

Areas of responsibility:

- Developed an interactive front-end interface in React.js for managing income, expenses, and transactions.
- Implemented dynamic updates for financial data with real-time date and time synchronization.
- Integrated RESTful APIs for user registration and CRUD operations, ensuring seamless backend communication.
- Collaborated with a team member to enhance project features using state management, routing, and exception handling.
- Utilized Git for version control, maintaining project integrity and facilitating collaborative development.
