- Tailwind
- Firebase

SOFT SKILLS

Presentation Skills | Conflict Management | Remote Collaboration | Team Management

WORK EXPERIENCE

Associate Software Engineer (Frontend Engineer)   12/2024 – 09/2025
VALEO HEALTH ME   Bengaluru
- **Frontend Development:** Built responsive and user-friendly interfaces using HTML, CSS, JavaScript, and React.js.
- **UI/UX Implementation:** Designed and optimised intuitive, engaging interfaces for health-related services to ensure seamless user experiences.
- **Integration & API Handling:** Managed smooth integration with backend services and APIs for real-time data updates.
- **Cross-Browser Compatibility:** Ensured the UI was responsive and optimised across devices and browsers.
- **Collaborative Development:** Worked closely with designers, product managers, and backend teams to deliver high-quality web applications.
- **Version Control & Deployment:** Maintained code using Git and handled seamless deployment of updates.

Internship   07/2024 – 12/2024
FRONTENDZIP   Noida
- Implemented and enhanced UI components using HTML, CSS, and JavaScript.
- Ensured a responsive and visually appealing design across all devices.
- Built and optimised React components to ensure a seamless user experience.
- Managed state and props effectively for better performance.
- Used React Hooks (useState, useEffect, etc.) to enhance functional components.
- Implemented modern CSS techniques (Flexbox, Grid, Animations) for better layouts.
- Maintained a consistent design system using reusable styles.
- Ensured cross-browser compatibility and smooth UI interactions..

PERSONAL PROJECTS

Finance Mangement 🔗   11/2024 – 12/2024
GitHub Link 🔗
- Developed an interactive front-end interface in React.js to manage income, expenses, and transactions.
- Implemented dynamic updates for financial data with real-time date and time synchronisation.
- Integrated RESTful APIs for user registration and CRUD operations, ensuring seamless backend communication.
- Collaborated with a team member to enhance project features using state management, routing, and exception handling.
- Utilised Git for version control, maintaining project integrity and supporting collaborative development.
